# CLASS INFORMATION

In an emergency, knowing what to do can save the life of a friend and co-worker. Logging is still one of the most dangerous jobs in the country and how you handle emergencies will make all the difference. Come join the class and learn how to deal with accidents and help save a life. Our instructors will help you learn:

- What information you need for every job site.
- How to get Emergency Services to your location (this is harder than it sounds!).
- How to safely use a chainsaw.
- How to apply first aid.
- How to move an injured person.
- How to extract someone from under equipment or trees.
- And other tips and techniques to help everyone get home alive at the end of the day.
